Re: Pettet Zone

AMENDED APPLICATION FOR PUBLIC HEARING

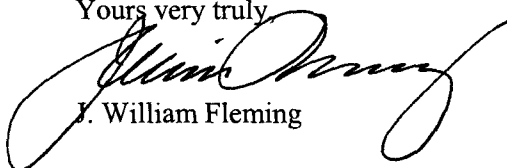

Dear Sir:

On August 21, 2006, EOG Resources, Inc. made application for a public hearing to consider evidence which, it is suggested, will establish that the area generally surrounding Applicant's proposed saltwater disposal well, the location of which is shown on the attached *revised* plat, is not productive of hydrocarbons from the Pettet Zone in the Sligo Field. The plat attached to the original application depicted an area the center of which was a location which is not to be used for a saltwater disposal well. Rather a well will be drilled at or very near the location shown on the revised plat attached hereto, which location is approximately 1000 feet in a southwesterly direction from the spot shown on the plat attached to the original application.

Applicant attaches to this Amended Application For Public Hearing a revised plat which is centered at or very near the location at which EOG Resources, Inc. proposes to drill a well to be used for saltwater disposal. The original application is hereby amended by substituting the attached revised plat for the plat which was attached to the original application.

Other than as hereby amended, the original application is ratified and confirmed in all respects.

Yours very truly

J. William Fleming
